IPS APPOINTS MARK A. BUTLER AS GENERAL MANAGER, ENGINEERING

-- Industry veteran joins John Gilroy and Dave Goswami to form Engineering Leadership Team to grow IPS design and engineering division --

Lafayette Hill, PA, May 21, 2007 – Integrated Project Services (IPS), a full-service engineering, design/build, validation and compliance company dedicated to assisting pharmaceutical and biotech companies improve operations, today announced the addition of Mark A. Butler as General Manager, Engineering and Principal. Mr. Butler, with his extensive industry expertise and technical knowledge, will be responsible for the strategic direction of IPS’ Engineering Division, market and client development, account management, quality, staff development and risk management. In addition, he joins John Gilroy, PE and Dave Goswami, PE to form the Engineering Leadership Team to grow IPS’ design and engineering division.

“We are pleased to welcome Mark to IPS,” said Dave Goswami, P.E., President and Chief Operating officer at IPS. “Engineering is an integral part of our business and Mark is an invaluable addition. His expertise in engineering large, technically complex facilities is instrumental in growing our design and engineering division as well as better serving our clients.”

Mr. Butler has more than 24 years of experience in facility design, construction and operations. His expertise is in the engineering and leadership of large, technically complex, engineering-intensive facilities. Mr. Butler rejoins IPS from Pfizer, where he was Director and Team Leader for Global Engineering. He has held senior level positions at KlingStubbins, formerly Kling and CUH2A, and started IPS’ New Jersey Business Unit in 1997. Highlights from Mr. Butler’s prior employment include the planning, design and construction of R & D and Pharmaceutical Manufacturing facilities. He is a graduate of The Pennsylvania State University with a degree in Heating, Ventilating and Air Conditioning (HVAC) and Solar Technology. Mr. Butler is considered a subject matter expert, frequently speaking for numerous associations and organizations. In addition, he is presently a member of ISPE’s Baseline Guide for Laboratories committee and has written and collaborated on several chapters for the new guideline.
