EXPERTISE

IPS has developed a core excellence of design professionals, engineers, architects and compliance specialists with industry operating experience who specialize in designing, hi-tech building and validating pharmaceutical and biotechnology facility projects.

Our engineers have numerous years of experience in the design, operation, commissioning and validation of pharmaceutical and biotech manufacturing facilities. Our process architects understand unit operations, material transfers, as well as the stringent regulatory requirements and guidelines mandated for the layout and design of a cGMP compliant facility.

Knowing the underlying technology, understanding industry trends, regulatory environment and manufacturing processes enables IPS experts to identify opportunities to streamline production and maximize efficiency. We shape breakthrough strategies that yield practical, affordable solutions to support each client's specific applications and business objectives.

The IPS Team of Experts

Ed Tannebaum, AIA
Design, Facility Mgmt, Master Planning, Strategy Planning
610.828.4090 x262

Vince Cebular
Commissioning and Qualifications, cGMP Compliance
610.828.4090 x251
vcebular@ipsdb.com

Chuck Stock, CxA
cGMP, Cell Culture Facilities, Medical Device Mfg/Operations, Commissioning/Qualifications, Process Development/Validation
610.828.4090 x339
cstock@ipsdb.com

Mark Butler
Facility Design, Construction, Operations, Master Planning, Lab Planning, Energy Assessments
610.828.4090 x249
mbutler@ipsdb.com

Gene Martini, PE
Project Planning/Delivery, Capital Project Mgmt, Contracting, Procurement, Biotechnology, Parenterals, OSD, Tissue Culture
610.828.4090 x377
emartini@ipsdb.com

Steve Wisniewski
Commissioning, Validation, cGMP, Auditing, Master Planning, Test Plans, Protocols
610.828.4090 x254
swisniewski@ipsdb.com

John Gilroy, PE
Design Engineering, Cost Estimating, Energy Analysis, Specializing in OSD, Sterile, Aseptic, Potent and Cytotoxic
610.828.4090 x213
jgilroy@ipsdb.com

Dave Brown
Project Services, Project Controls, Cost Forecasting, Change Management, Cash Flow Projections
610.828.4090 x212
dbrown@ipsdb.com

Edward (Ted) Jablonski
Process Architect, Programming, Master Planning, Concept Development and Design
732.748.1990 x225
ejablonski@ipsdb.com

Saul Edenbaum
Bulk/API Plant Design, Small Molecule Processing, Biotech Facility Design, Polymer Processing
610.828.4090 x238
sedenbaum@ipsdb.com

Paul Miraglia
Biotech Process Design, Cell Culture Specialist, Bioreactor and Purification Design, Biotech Plant Operations
610.828.4090 x336
pmiraglia@ipsdb.com

Joe Rotman
Upstream Processing, Bioreactor and Formulation System Design, Process Automation, CIP, Materials Handling
610.828.4090 x255
jrotman@ipsdb.com

Joe Wilusz
Bulk/API Plant Design, Biotech Unit Operations, Pilot Plant Design, Aseptic Liquid Filling
610.828.4090 x315
jwilusz@ipsdb.com

Gerry Cerulli
Bulk/API Plant Design, Containment and CIP Technology, Biotech Plant Design
732.748.1990 x205
gcerulli@ipsdb.com

Rick Braun
Process Automation, Aseptic Processing, Bioreactor Design
610.828.4090 x357
rbraun@ipsdb.com

Rich Lesnik
Operations Analysis, Pharma Manufacturing, Potent Compounds, Economic Analysis, Biotech Processing
732.748.1990 x272
rlesnik@ipsdb.com

Sterling Kline, RA
Sterile Isolation Technology, Potent Compound Design, Programming and Master-planning, Architectural Conceptual Design
610.828.4090 x345
skline@ipsdb.com

Rafi Maslaton
Operational Excellence, Manufacturing, Quality Operation and Supply Chain Management
610-828-4090
rmaslaton@resultconsulting.com

Russ Somma, Ph.D.
Dosage Form Development, Troubleshooting, Manufacturing Scale-up, Technology Transfer
732.748.1990 x203

for Manufacturing Technology

Integrated Project Services (IPS) is a full service Engineering, Procurement, Construction Management and Validation company dedicated to the pharmaceutical, biotech and hi-tech industries as well as medical device, diagnostics and specialty chemicals. Founded on the principal of delivering the highest quality services at an excellent value, IPS has completed over \$700MM in the past five years on Engineering, Procurement, Construction Management and Validation projects in technically complex and high performance facilities. Our subject matter experts include technologists, process engineers, architects, engineers, project management specialists, regulatory and compliance professionals and business and operations consultants.

Innovative Path to Success

IPS' services enable clients to take advantage of the speed and flexibility we add to processes. With years of hands-on experience, our resident experts create and shape results-oriented strategies that yield practical, affordable solutions to support each client's specific application and business objective.

- Site Selection
- Master Planning
- Conceptual Design Studies
- Definitive Engineering
- Detailed Design and Procurement
- Construction Management
- Commissioning and Validation

Single Source for Precision Delivery

IPS is recognized and sought after as a premier provider of integrated consulting, design, project delivery and related commissioning and validation services. We consistently meet client expectations and help them succeed through delivering quality technical services at a fair reward and with a quality experience.

Gambro Renal Products
Sterile Manufacturing Facility

Cephalon
Manufacturing Master Plan
Expansion Facility

Bristol-Myer Squibb
Clinical Supplies Operation (CSO)
Expansion Facility

AppTec
Biopharm Testing/Manufacturing Facility

Successful Track Record in Delivering Cost Effective Projects

IPS engineers and architects approach design from the full range of project life cycle, regardless of whether we are involved with all aspects of the project. Our unique approach and experience in hi-tech industries enables IPS to suggest alternatives to optimize cost, schedule and technical performance to meet client requirements and budget. Our subject matter experts include project management professionals skilled in helping clients achieve their capital goals.

The IPS Commitment

- We consistently seek new opportunities to deliver value and help clients succeed.
- We approach our work passionately and enthusiastically; we love what we do.
- We continually improve our solutions, tools, methods and entire service delivery system for the benefit of clients.
- We conduct ourselves with uncompromising honesty and true commitment.
- We sustain long- term relationships of compelling mutual value through teamwork and committed individuals.
- We are driven to succeed. Your success is our success.
