**IPS APPOINTS TIMOTHY L. BEGLEY, COMMISSIONING AND
VALIDATION SPECIALIST**

Lafayette Hill, PA; October 12, 2009 - Integrated Project Services (IPS), a full-service engineering, construction services, commissioning and validation company dedicated to assisting technically complex companies, today announced the addition of Timothy L. Begley as Commissioning / Validation Project Leader. Mr. Begley will be leading site qualification and validation efforts for client projects and will be based out of IPS' Indianapolis, Indiana office.

Mr. Begley possesses over fourteen years of experience and will leverage his technical knowledge of operations and validation relating to pharmaceutical processing, commissioning and validation. Specifically, his validation experience includes the development and execution of all forms of pharmaceutical test protocols for numerous major pharmaceutical companies. The type of projects includes Research & Development, aseptic filling, sterile and oral solid dosage facilities, medical device and controlled environments such as cell culture processing. Mr. Begley earned a Bachelor's degree in General Studies with a concentration in Biology and Science from Indiana University.

"We're very pleased to have Tim join our team, and look forward to his contributions," said Charles W. Stock, CxA, Senior Vice President, Compliance and Partner, IPS. "The background and depth of experience he possesses is a great fit for IPS and our clients."

About IPS
