IPS APPOINTS DAVID J. BROWN AS DIRECTOR OF PROJECT SERVICES

*- Seasoned Professional with Expertise in Project Services and Project Controls
for High Performance, Technically Complex Facilities --*

Lafayette Hill, PA, April 23, 2007 – Integrated Project Services (IPS), a leading, full-service engineering, procurement, construction management and validation company dedicated to assisting pharmaceutical and biotechnology companies improve operations, today announced the appointment of David J. Brown as Director, Project Services. In this role, Mr. Brown will lead the project services and project controls teams to develop strategies that yield solutions to support client projects and business objectives. He will also oversee the implementation of a wide range of project controls functions such as estimating, planning, cost control, change management, progress measurement, risk management and cash flow projections for the benefit of key pharmaceutical and biopharmaceutical clients.

"Dave brings a keen understanding of all phases of project work including conceptual design, detailed design and engineering, specifications, energy studies, construction support and validation," said Dave Goswami, PE, Principal and President, IPS. "Our clients will benefit from Dave's extensive experience in project controls which provide real-time access to critical daily events and information that impact the progress, budget and overall cost of projects. We are delighted that Dave has joined IPS and look forward to his many contributions."

Throughout his twenty-three year career, Mr. Brown has focused on project controls and mechanical engineering serving clients in the commercial, institutional, healthcare, government, manufacturing and life sciences industries. He was responsible for overseeing numerous mechanical systems for bulk pharmaceuticals including oral solid dosage, biotech facilities including cell culture, purification and aseptic fill/finish, biological and chemical laboratories, pilot plants, warm and cold rooms, central plants and utilities. Most recently, Mr. Brown was Northeast Regional Director, Project Services with CH2M Hill Lockwood Greene where he was responsible for the administration of Project Services for all business sectors. Previously, he was Director of Project Services at Technip BioPharm, Inc. At Foster Wheeler and Davy McKee Kvaerner John Brown, a division of Kvaerner US Inc., Mr. Brown held several positions with increasing focus and responsibility on cost control. Mr. Brown received his Bachelor's Degree in Biophysics and Electronics Engineering from the University of Scranton.
