Boca Raton, FL (TBD) --- Multi-Media Productions (USA), Inc. is pleased to announce that Integrated Project Services (IPS). will be airing on *21st Century Business* on the Fox Business Network (as paid programming). This series will focus on Improving Business through Innovative Strategies.

Improved operational capabilities, throughput, process control, optimized cost and minimized risk will increase your bottom line and allow you to focus your attention on other areas of your business. IPS is an award winning and one of the largest and most sought after full service engineering firms dedicated to assisting Pharmaceutical and Biotechnology clients worldwide to successfully engineer, construct and validate capital projects and improve operations.

IPS focuses on new and/or existing facilities in hi-tech and highly regulated industries providing a range of technical consulting, operational excellence, sustainability, engineering, construction, commissioning and qualification services. Comprised of industry's top subject matter experts, the team provides knowledge-driven solutions to implement cutting edge technologies and relevant scientific applications in all sectors of biopharmaceutical development and manufacturing including Aseptic, Oral Dosage, Biotechnology as well as API/Specialty Chemicals. The team's strategic expertise and deep industry knowledge account for their unparalleled ability to anticipate challenges and offer cost effective solutions to achieve your project goals and strategic business objectives.

IPS specializes in new facilities and/or existing complex facilities in high-tech and highly regulated industries providing technical consulting, engineering, construction and commissioning and qualification services.

Partnering with start-up to large global companies throughout the project life cycle, IPS technical experts drive innovation and value to biopharmaceutical research, manufacturing and packaging operations.
