IPS APPOINTS NEW LEADERSHIP TEAM FOR NEW JERSEY OPERATIONS

– Team Possesses 80 Years of Combined Client and Industry Experience –

Lafayette Hill, PA, September 12, 2007 – Integrated Project Services (IPS), a leading, full-service engineering, design/build, validation, and compliance company, today appoints a new leadership team for its New Jersey operations.

“Positioning our regional New Jersey office to expand our service offerings for the benefit of pharmaceutical and biotechnology clients is very exciting,” said Dave Goswami, President of IPS. “We are confident that this talented Leadership Team will continue to offer the same level of expertise they are accustomed to—knowledge-driven, cost effective solutions. We remain committed to delivering high performance, technically complex facilities for all of our clients on time and on budget.”

David J. Brown – Mr. Brown was named Regional Office Manager, New Jersey. Mr. Brown will lead IPS’ New Jersey-based operations and in addition, will continue to lead the project services and project controls teams to develop strategies that yield solutions to support client projects and business objectives. Throughout his twenty-three year career, Mr. Brown has focused on project controls and mechanical engineering serving a variety of clients in the pharmaceutical, commercial, institutional, healthcare, government, and life sciences industries. In addition, his expertise includes Bulk API manufacturing, fill and finish oral solid dosage, biotechnology, cell culture, purification, aseptic manufacturing, laboratories, pilot plants, central plants and utilities.

Patrick N. Boccio, PE – Mr. Boccio was named Director, Project Management and will lead project management, key account management and project development activities for IPS’ New Jersey-based operations. With more than twenty years in the design of pharmaceutical, commercial, retail, industrial and governmental facilities, he has extensive experience in the overall engineering/architectural designs and project management for over seventy high tech projects with a total construction value of approximately \$340MM. In addition, his expertise includes pharmaceutical intermediate production facilities, high performance laboratories, pilot plant facilities, compressed air plants, chilled water plants, hazardous storage facilities, site wide fire alarm system upgrades, security control facilities, and data center critical systems.

Aaron Weinstein – Mr. Weinstein was named Manager, Compliance and will lead Compliance activities for IPS’ New Jersey-based operations. He possesses a broad range of experience in the areas of Biopharmaceutical and API manufacturing, including facility, utility, and process equipment validation. He also has experience with thin-films manufacturing and medical device validation. He has audited validation programs for compliance with FDA and corporate requirements. In addition, he has written and implemented Commissioning and Qualification (Validation) Master Plans, using a risk-based approach.

(more)

Mark A. Butler – With his extensive industry experience and technical knowledge, Mr. Butler will continue as General Manager, Engineering and Principal-in-Charge of New Jersey operations. Mr. Butler has over 24 years of experience in facility design, construction, and operations. His expertise is in the engineering and leadership of large, technically complex, engineering-intensive facilities. In addition, he is presently a member of ISPE’s Baseline Guide for Laboratories committee and has written and collaborated on several chapters for the new guideline.

About IPS

Integrated Project Services (IPS), www.ipsdb.com, is a full-service, engineering firm servicing the pharmaceutical and biotechnology industries as well as medical device, diagnostics and specialty chemical.
