## IPS Announces New Office in the San Francisco Bay Area

**Blue Bell, Pennsylvania, September 30, 2020** – IPS-Integrated Project Services, LLC, a leading provider of engineering, procurement, construction management, and validation (EPCMV) services, announces the opening of their newest office in the San Francisco Bay Area. Located in the Emeryville hub of the life sciences industry, IPS offers its single-source solution to simplify complex project delivery.

*IPS office overlooking the San Francisco Bay, located at 2200 Powell St., Suite 470, Emeryville, CA 94608*

IPS has had a long-standing presence in the San Francisco Bay Area, supporting a number of major life science clients and projects. Now with the establishment of a new office, IPS solidifies their commitment to support the local market and become a key recruitment hub for top talent.

“We are here!” states Simon Forder, Vice President, Regional Business Leader. “The San Francisco Bay Area is the headquarters for many companies engaged in both early drug development and commercial drug production. Our local Emeryville operation will provide our clients with local life science expertise, expanded services, and streamlined end-to-end project delivery.”

As IPS continues to expand its global footprint, we seek passionate individuals to fill positions in every department and role including project engineering, construction management, and compliance.

Mark Butler, IPS’ President and Managing Director of the Americas, states, “We pride ourselves in meeting the needs of local and multinational clients by offering subject matter expertise and single-source EPCMV project delivery services worldwide. Though we are not new to the San Francisco area, our physical presence reassures our clients that we are here for the long haul, continuing to serve them close to home.”

### About IPS

IPS is a global leader in developing innovative business solutions for the biotechnology and pharmaceutical industries.
