IPS California Grows with the Addition of Steven Moodie

Blue Bell, Pennsylvania, March 23, 2021 – IPS-Integrated Project Services, LLC, a leading provider of engineering, procurement, construction management, and validation (EPCMV) services, announces the appointment of Steven Moodie as the Associate Director, Project Management in IPS' Design group. Mr. Moodie joins the Irvine, California, office, where he will work alongside Keith Higgins to form the leadership driving an elite, award-winning team of engineering and project management professionals.

Mr. Moodie has over 30 years of knowledge in executing projects in the biopharmaceutical and science and technology industries on domestic and international scales. His experience has given him the foundation for strong leadership and technical skills that he used to manage multidisciplinary teams in previous projects. His understanding of the complete project life cycle allows him to make more meaningful decisions for fast-paced projects.

As Associate Director, Project Management, Mr. Moodie's responsibilities include managing and directing IPS' West Coast region project managers and project engineers. Taking an active leadership role in our project management group will include mentoring and oversight for the region's project management team.

"Steven has demonstrated his strong relationship building and strategic planning skills within the pharmaceutical industry and beyond," states Patrick Bucklen, Vice President of West Coast Operations. "He is a strong addition to the IPS West Coast region, and we are excited to have him use his skillset on our upcoming EPCMV projects."

"I'm extremely excited to be working alongside Steven, again. He embodies customer service and is an excellent advocate for clients as he thinks about all aspects of project delivery while building lasting relationships. IPS is fortunate to have Steven on board, and we are looking forward to the additional leadership that Steven brings," states Keith Higgins, Regional Operations Manager.

About IPS

IPS is a global leader in developing innovative business solutions for the biotechnology and pharmaceutical industries. Through operational expertise and industry-leading knowledge, skill and passion, IPS provides consulting, architecture, engineering, construction management, and compliance services that allow clients to create and manufacture life-impacting products around the world. Headquartered in Blue Bell, PA-USA, IPS is one of the fastest-growing companies servicing the life sciences industry with over 1,500 professionals in the US, Canada, Brazil, UK, Ireland, Switzerland, Germany, Singapore, China, and India.
